

# THE SAINTS ROOMS

## WEDDING RECEPTION TABLE PLAN

This represents a typical room layout for a wedding reception with some one hundred guests

### ROOM LAYOUT

Shown is a typical wedding reception layout. Use of different size tables and layouts mean the room will accommodate some 120 people (or more for just dining). We can advise on the best layout for your numbers – from dining only to dining and a full blown dance or ceilidh. With the stage and the bar in the same area it really is an inclusive and intimate room – just for you.
